Project Overview

Our mission is to create a modern, compassionate online platform that serves displaced persons, soldiers, wounded soldiers, and widows by connecting them with resources, support, and a caring community.

-  Connect people in need with available resources
-  Foster a supportive community through shared experiences
-  Provide secure channels for financial assistance
-  Visualize and coordinate humanitarian efforts

Target Audience

Our platform serves a diverse community of individuals with varying needs for support and those with resources to offer help.

Displaced Persons

Individuals and families forced to leave their homes

Soldiers & Wounded Veterans

Active military personnel and those injured in service

Widows

Those who have lost partners in conflict

Volunteers & Donors

Individuals and groups looking to provide assistance

NGOs & Rehabilitation Centers

Organizations providing structured support services

A diverse, multilingual user base in need of trust and support

Key Features Overview

Volunteer Registration

Admin-approved registration system for volunteers, funds, and rehabilitation centers

Categorized Aid

Help requests organized by categories to streamline matching needs with appropriate support

Financial Support

Secure integration with PrivatBank and Monobank payment systems for donations

Community Blog

Open registration platform enabling all users to create discussion topics and share experiences

Interactive Map

Geographic visualization of help hotspots with marking capabilities for targeted assistance

Multilingual

Full Ukrainian and English language support for broader accessibility and inclusivity

 All features designed with modern, accessible, and mobile-friendly approach

Registration Process

Volunteers, Funds, & Centers

Our platform prioritizes trust and security through a comprehensive registration and management system for all aid providers.

-  **Central Registration System**
All volunteer accounts require admin verification and approval
-  **Trusted Network for Aid**
Verified volunteers create a reliable support ecosystem
-  **Verified Organization Partnerships**
Collaboration with established rehabilitation centers and funds
-  **Resource Management**
Efficient coordination and tracking of volunteer activities
-  **Administrator Dashboard**
Real-time monitoring of volunteer and fund activity

 All partners undergo thorough verification to ensure trust and security.

Aid Categorization

Our platform organizes help requests into clear categories, ensuring efficient resource allocation and quick response to those in need.

Displaced Persons
Housing, relocation assistance, documentation help

Active Soldiers
Equipment, supplies, family support

Wounded Soldiers
Medical assistance, rehabilitation, counseling

Widows
Financial support, childcare, emotional resources

Request Submission
Needs identified by verified volunteers

Categorization
Sorted by type of aid needed

Quick Navigation
Volunteers find relevant needs faster

Aid Delivery
Efficient help reaches those who need it

Financial Assistance

A secure, transparent system for donors to contribute financial assistance to those in need through trusted banking partners.

-  Dedicated donation section with multiple support options
-  Secure payment integration with PrivatBank & Monobank
-  Transparent transaction history and impact tracking
-  Simplified step-by-step instructions for donors
-  Mobile-friendly interface for donations on the go

 Secured by SSL encryption

Community Blog

An interactive platform where users can share experiences, create discussions, and access valuable resources within a supportive community environment.

-  **Open Registration**
Anyone can create an account and join the community
-  **User-Created Topics**
Members can initiate discussions on relevant subjects
-  **Article Publishing**
Blog section for long-form content on aid and support
-  **Resource Sharing**
Platform for sharing helpful links, guides, and materials
-  **Community Moderation**
Content review system to ensure safety and trust

💡 The blog helps build connection between those in need and volunteers sharing their experiences

Community Support

Interactive Help Map

Our interactive map visualizes areas in need of assistance, enabling volunteers to efficiently target their efforts and improve coordination of humanitarian aid.

-  **Location Marking**
Verified volunteers can mark areas where help is needed with specific category tags
-  **Aid Filtering**
Users can filter the map by aid category, urgency level, and resource requirements
-  **Proximity Alerts**
Volunteers receive notifications about nearby assistance requests
-  **Density Analysis**
Administrators can view heatmaps showing concentration of needs by region
-  **Route Planning**
Optimized routes for delivering multiple aid packages efficiently

 All map data is moderated and verified to ensure accuracy and prevent misuse

Multilingual Support

Our platform provides comprehensive multilingual support to ensure accessibility and inclusivity for all users regardless of their language preference.

-  Complete interface localization in Ukrainian and English
-  One-click language switching functionality
-  All resources, forms, and documentation available in both languages
-  Support for bilingual user-generated content in the community blog
-  Extensible architecture for adding more languages in future

 *Language selection is remembered across sessions for improved user experience*

Modern UI Design Approach

User-Centered Design

Prioritizing intuitive navigation and simple user flows for diverse user base

WCAG Accessibility Standards

High contrast, screen reader support, keyboard navigation

Responsive & Mobile-First

Ensuring accessibility across all device types

Implementation Roadmap

- 1 Phase 1: Foundation (Month 1-2)**
Core structure, authentication, database setup
- 2 Phase 2: Features (Month 3-4)**
Category system, mapping, payment integration
- 3 Phase 3: Community (Month 5)**
Blog functionality, multilingual support
- 4 Phase 4: Launch & Scaling (Month 6+)**
Public release, volunteer onboarding, expansion
